DIMENSION

PROCEDURE

Dirt treatment method for SFPT-20-02 only

1. Confirm that the sliding valve is closed, separate the recovery tank and clean water tank
2. Rotating emptying spout 90°, open emptying outlet
3. Open the recovery tank cover to pour out the dirt and clean it
4. Check that the sealing ring in the cover is in place and tighten again

STORAGE

1. Remove all water from tanks, pump assembly before storing.
2. Store the portable toilet in a dry, clean area.

PRECAUTIONS FOR SAFE USE

1. The toilet must be placed steadily when using it!
2. The maximum capacity of the toilet is 200 kg!
3. Do not lean on the back cover of the toilet whilst upright!
4. Disassembly of the toilet air pump body is prohibited!
5. Make sure the side buckle is fastened before using the toilet!
6. Tighten the recovery tank cover before the toilet trial!

CAUTION

1. Never add the toilet cleaning fluid to the flush holding tank
2. Make sure you have enough water in the flush tank prior to use
3. Do not lean on the back cover of the toilet whilst upright
4. Clean the holding tank regularly
5. Avoid long term exposure to direct sunlight
6. Avoid high temperatures (over 60 deg. Celsius)
7. Children should be supervised when using this toilet
8. NEVER empty the holding tank directly into the environment

APPLICATION

Your best choice for Marine, RV, Camping, Board Room, Medical Care, Pregnant women, Children and The Elderly.
